

# WHY REPAIR?

## FOCUSING ON HEALTHY HOUSING

Safe, healthy, and secure housing is a solid foundation that leads to outcomes such as:

- Improved academic performance
- Decreased risk of developing asthma from indoor pollutants
- Decreased risk of seniors falling at home

## MAINTAINING AFFORDABLE HOUSING

In the midst of an affordable housing crisis, restoring existing homes is crucial to preserving the well-being of homeowners and preventing the loss of their homes. Rebuilding Together uses a systematic, science-based approach to safe and healthy housing based on a 25-priority checklist.

According to the U.S.

Department of Housing and Urban Development, housing is considered affordable when it costs no more than 30% of a household's annual income. Based on this guideline, nearly 38% of the homeowners in the local area are cost-burdened.
