

Abigail, '20

Hometown: Poughkeepsie, NY

Major: Psychology / Special Education

Personal Interests: I enjoy painting, fashion, shopping, and exercising.

Campus Involvement: I am involved in the Commuter Student Council, the National Society of Leadership and Success, and I am an Orientation Leader.

How I Can Help As Your Peer Mentor: I can help you as a peer mentor because I will be there if you have any questions about anything on campus, or about your classes, or any advice you need. It was a little hard for me to get adjusted so I can understand anyone who needs help in the adjustment from high school to college.

What I Was Nervous About: I was nervous about the workload and if I would have time to get all my work done while balancing a job and my extra curricular activities. But I soon realized that if I plan ahead, then I will be able to get my work done in a timely manner. I also found it helpful to write when all my work was due in a planner.

What I Was Excited About: I was excited about making new friends and figuring out what career I was going to choose. I was hesitant about my Psychology major coming into college, but by the end of my freshman year I knew I wanted to have Education as my major.

Advice for the Class of 2021: Don't procrastinate! Using your time wisely can be difficult, but if you manage it you will be able to get your work done faster. Take advantage of the resources available on campus because they will help you become a better student and will help you understand your class better. Also ask early in the semester for help!

I'm excited to work together and meet
you in the Fall!
