## Hudson Valley Tax Year 2020-2021

- During the 2020-2021 tax year, the number of households in the Hudson Valley decreased .07 percent. The Hudson Valley gained 616 households, increasing from 862,534 during the 2019-2020 tax year to 863,150 in 2020-2021. Migratory activity resulted in a net loss of 4,280 households and 856 million dollars in AGI on the year.
  - 54,210 households moved into the Hudson Valley.
  - 58,490 households moved out of the Hudson Valley.
  - 4,896 households were created internally.
- Intrastate migratory activity accounted for 71.30 percent of all inflows and 43.80 percent of all outflows.
  - For the period, intrastate migration resulted in a net gain of 13,045 households and 2.1 billion dollars in AGI for the year.
  - Migratory activity within the Hudson Valley represented 29.40 percent of all intrastate inflows (20.90 percent of all inflows) and 44.30 percent of all intrastate outflows (19.41 percent of all outflows). For the period, Dutchess County gained 1,028 households, followed by Orange (491 households), Ulster (258 households) and Putnam counties (229 households). Westchester County lost 1,819 households and Rockland County lost 187 households during the period (see Table One).

- Migratory activity with the five counties of New York City accounted for 60.20 percent of all intrastate inflows (42.90 percent of all inflows) and 35.00 percent of all intrastate outflows (15.30 percent of all outflows). For the period, migratory activity between the Hudson Valley and New York City resulted in a net inflow of 14,301 households, an increase from 12,700 households during the 2019-2020 tax period. Consistent with trend, the most significant source of inbound migration was Bronx County (5,480 households) followed by New York County (Manhattan, 3,546 households). On the period, the Hudson Valley gained 3.6 billion dollars in AGI (see Table Two).

- During the 2020-2021 tax year, foreign migration accounted for less than one percent of all inflows and all outflows.

## Dutchess County Tax Year 2020-2021

- During the 2020-2021 tax year, the number of households in the county advanced 1.03 percent. Dutchess County gained 1,166 households, rising from 113,494 households during 2019-2020 to 114,660 households in 2020-2021. During the period, average adjusted gross income (AGI) increased from 92,140 to 96,107 dollars per annum. Migratory activity resulted in a net gain of 627 households and 191.2 million dollars in AGI on the year.
  - 7,634 households moved into the county.
  - 7,007 households moved out of the county.
  - 539 households were created internally.
- Intrastate migratory activity accounted for 72.90 percent of all inflows and 46.90 percent of all outflows.
  - Migratory activity within the Hudson Valley represented 50.00 percent of all intrastate inflows (36.40 percent of all inflows) and 57.40 percent of all intrastate outflows (26.90 percent of all outflows).
  - For the period, intraregional migration resulted in a net gain of 1,028 households and 80.80 million dollars in AGI for the year, compared to 769 households and 73.4 million dollars of AGI during the 2019-2020 tax year. Consistent with trend, the county gained households from Westchester, Putnam, Orange and Rockland counties and lost households to Ulster County (see Table 1).

- Migratory activity with the five counties of New York City accounted for 36.50 percent of all intrastate inflows, (26.60 percent of all inflows) and 19.10 percent of all intrastate outflows (9.00 percent of all outflows). For the period, migratory activity between Orange County and New York City resulted in a net inflow of 1,404 households, up from 1,229 households and 437 million dollars of AGI during the 2019-2020 tax period; during the 2020-2021 time period, the county gained 338.00 million dollars in AGI. Consistent with trend, migration between Dutchess County and New York City was dominated by households migrating from Kings County (Brooklyn), New York County (Manhattan) followed by Bronx County (see Table 2).

- Interstate activity accounted for 27.10 percent of all inflows and 53.10 percent of all outflows. For the period, interstate migration resulted in a net loss of 1,651 households and 108.9 million dollars of AGI<sup>1</sup>. Consistent with the long-term trend, the most important recipient of migratory outflows was the Southern Region (see Table 3).
- During the 2020-2021 tax year, there was no foreign migration into or out of Dutchess County.

<sup>1</sup> The detailed AGI information does not equal the summary data. The summary data is equal to 217 million dollars in AGI.

## Rockland County Tax Year 2020-2021

- During the 2020-2021 tax year, the number of households in the county fell .52 percent. Rockland County lost 600 households, falling from 115,068 during 2019-2020 to 114,468 in 2020-2021. During the period, average adjusted gross income (AGI) increased from 110,310 dollars 107,082 to dollars per annum. Migratory activity resulted in a net loss of 1,655 households and 225.4 million dollars in AGI on the year.
  - 5,546 households moved into the county.
  - 7,201 households moved out of the county.
  - 1,055 households were created internally.
- Intrastate migratory activity accounted for 67.30 percent of all inflows and 36.70 percent of all outflows.
- Migratory activity within the Hudson Valley represented 30.60 percent of all intrastate inflows (20.60 percent of all inflows) and 50.60 percent of all intrastate outflows (18.50 percent of all outflows).
  - For the period, intraregional migration resulted in a net loss of 187 households and 8.4 million dollars in AGI for the year. Consistent with trend, the county gained households from Westchester and lost households to Dutchess, Orange, Putnam, and Ulster counties (see Table 1).

- Migratory activity with the five counties of New York City accounted for 61.10 percent of

all intrastate inflows (41.10 percent of all inflows) and 30.90 percent of all intrastate outflows (11.30 percent of all outflows). For the period, migratory activity between Rockland County and New York City resulted in a net inflow of 1,466 households, up from 1,108 households during the 2019-2020 tax period. During that time, the county gained 195.00 million dollars in AGI. Consistent with trend, migration between Rockland County and New York City was dominated by households migrating from Bronx County and Kings County (Brooklyn), see Table 2.

- Interstate activity accounted for 32.70 percent of all inflows and 63.20 percent of all outflows. For the period, interstate migration resulted in a net loss of 2,737 households and 365.00 million dollars of AGI. Consistent with the long-term trend, the most important sources of migratory outflows were to the Northeast and Southern regions (see Table 3).

- During the 2020-2021 tax year, foreign migration was minimal.

## Putnam County Tax Year 2020-2021

- During the 2020-2021 tax year, the number of households in Putnam advanced 1.12 percent. The county gained 433 households, rising from 38,627 households during the 2019-2020 tax year to 39,060 households in 2020-2021. Over the period, average adjusted gross income (AGI) fell slightly, from 113,979 to 113,625 dollars per annum. Migratory activity resulted in a net gain of 55 households and 59.80 million dollars in AGI on the year.
  - 3,232 households moved into the county.
  - 3,177 households moved out of the county.
  - 378 households were created internally.
- Intrastate migratory activity accounted for 81.60 percent of all inflows and 55.50 percent of all outflows.
  - Migratory activity within the Hudson Valley represented 57.50 percent of all intrastate inflows (47.00 percent of all inflows) and 77.40 percent of all intrastate outflows (42.20 percent of all outflows).
  - For the period, intraregional migration resulted in a net gain of 240 households and 31.60 million dollars in AGI for the year. Consistent with trend, the county gained households from Westchester and Rockland counties and lost them to Dutchess and Ulster counties see (Table 1).

- Migratory activity with the five counties of New York City accounted for 50.50 percent of all intrastate inflows (28.00 percent of all inflows) and 26.50 percent of all intrastate outflows (7.30 percent of all outflows). For the period, migratory activity between Putnam County and New York City resulted in a net inflow of 658 households up from 504 households during the 2019-2020 tax period. On the period, the county gained 127.50 million dollars in AGI. Consistent with trend, migration between Putnam County and New York City was dominated by households migrating from Bronx County followed by New York County (Manhattan); see Table 2.

- During the 2020-2021 tax year, there was no foreign migration into or out of Putnam County.

## Ulster County Tax Year 2020-2021

- During the 2020-2021 tax year, the number of households in the county advanced 1.51 percent. Ulster County gained 1,049 households, rising from 69,353 during the 2019-2020 tax year to 70,402 in 2020-2021. Over the period, average adjusted gross income (AGI) increased from 75,234 to 77,199 dollars per annum. Migratory activity resulted in a net gain of 692 households and 303.60 million dollars in AGI on the year, compared to 621 households and 243 million dollars in AGI during 2019-2020.
  - 5,083 households moved into the county.
  - 4,391 households moved out of the county.
  - 357 households were created internally.
- Intrastate migratory activity accounted for 74.50 percent of all inflows and 57.80 percent of all outflows.
- Migratory activity within the Hudson Valley represented 39.40 percent of all intrastate inflows (29.40 percent of all inflows) and 48.60 percent of all intrastate outflows (28.10 percent of all outflows).
  - For the period, intraregional migration resulted in a net gain of 258 households and 27.60 million dollars in AGI for the year. Consistent with trend, Ulster gained households from every county in the region (see Table 1).

- Migratory activity with the five counties of New York City accounted for 42.10 percent of

all intrastate inflows (31.40 percent of all inflows) and 13.70 percent of all intrastate outflows (7.90 percent of all outflows). For the period, migratory activity between Ulster County and New York City resulted in a net inflow of 1,249 households, which is up from 1,100 households during the 2019-2020 tax period. During this period, the county gained 313.40 million dollars in AGI. Consistent with trend, migration between Ulster County and New York City was dominated by households migrating from Kings County (Brooklyn) and New York County (Manhattan) followed by Queens County (see Table 2).

- Interstate activity accounted for 25.5 percent of all inflows and 42.2 percent of all outflows. For the period, interstate migration resulted in a net loss of 558 households and 4.3 million dollars in AGI<sup>1</sup>. Consistent with the long-term trend, the most important source of migratory outflows was to the Southern Region (see Table 3).

<sup>1</sup> The detailed AGI information does not match the summary data. According to the summary data the AGI was 25.6 million dollars.

- During the 2020-2021 tax year, foreign migration accounted for less than one percent of all inflows and all outflows.

## Westchester County Tax Year 2020-2021

- During the 2020-2021 tax year, the number of households in Westchester fell 0.6 percent. The county lost 2,294 households, falling from 382,154 during the 2019-2020 tax year to 379,865 in 2020-2021.
- During that period, average adjusted gross income (AGI) increased from 180,096 dollars to 181,090 dollars per annum. Migratory activity resulted in a net loss of 3,531 households and 1.20 billion dollars in AGI on the year.
  - 22,965 households moved into the county.
  - 26,496 households moved out of the county.
  - 1,237 households were created internally.
- Intrastate migratory activity accounted for 70.90 percent of all inflows and 42.60 percent of all outflows.
- Migratory activity within the Hudson Valley represented 11.50 percent of all intrastate inflows (8.10 percent of all inflows) and 32.70 percent of all intrastate outflows (13.90 percent of all outflows).
  - For the period, intraregional migration resulted in a net loss of 1,819 households and 172.50 million dollars in AGI for the year. Consistent with trend, Westchester lost households to every other county in the region (see Table 1).
