

Taylor, '18

Hometown: Livingston, NJ

Transferred to Marist: Fall 2015

Major: Psychology

Personal Interests: I enjoy Intramural sports, volunteering, and my internship.

Campus Involvement: I am involved in Autism Speaks, Psychology Club, and Intramurals. I'm also on the Transfer Advisory Board and a Tour Guide.

How I Can Help As Your Peer Mentor (and Former Transfer Student): I thought that coming here I was going to be really lonely but then I realized that Marist has so many opportunities to get involved on campus and to be a part of this community. As transfer peer mentors we really strive to make you feel just as comfortable as we did by giving you the same feeling of community.

What I Was Nervous About: I was nervous about having to come in and make friends all over again. I was going to be a sophomore and all the sophomores already had friends from the previous year. Once I got here I realized everyone was super welcoming and willing to make new friends.

What I Was Excited About: I was excited to be going to a school where people didn't go home on the weekends!

Advice for an Incoming Transfer Student: The best advice I can give is to take advantage of all the resources and events. Make sure to go to the activities fair the first week of school and sign up for as much as possible!

What is it like to be a transfer student at Marist? Being a transfer here is great! Everyone is extremely welcoming and there are plenty of resources available to help transfers acclimate to the campus.

Enjoy your summer and we can't wait to
see you guys in the Fall!
